

Kontiva Brand Reference

Claude-friendly PNG/PDF reference for the approved Kontiva identity. SVG masters remain in the full brand ZIP, but this PDF and the PNGs can be uploaded to Claude project files.

Approved Concept Sheet

Core Direction

Kontiva uses a professional geometric K monogram with ledger/accounting balance lines and a restrained Swiss red accent. The identity should feel professional, simple, elegant, eye-catching, calm, premium, private, Swiss-compatible, and trustworthy enough for salary statements, bills, and tax documents.

Visual Rules

Use	Avoid
Geometric K monogram Ledger/balance lines Small Swiss red accent Dark premium rounded app tile Clean sans-serif wordmark	Piggy banks Coins or dollar signs Mascots Fake bank crests Shield/security-software look Excessive gradients Childish budget-app language

Upload Assets

Use these PNG files in Claude project files when SVG is not supported.

	kontiva-icon-1024.png Primary app icon direction for desktop shortcut, dock/taskbar, installer, splash screen and favicon generation.
	kontiva-wordmark.png Light-context wordmark for website headers, onboarding, documentation and app UI.
	kontiva-wordmark-dark.png Dark-context wordmark for dark mode, installer screens and premium marketing surfaces.

Palette

Charcoal	#121A22
Off-white	#F6F7F8
Warm light	#F8F7F4
Swiss red accent	#E11D2E
Soft border	#DCE1E5

Instruction for Claude

Treat the attached concept sheet as the visual source of truth. Do not redesign the brand from scratch. Use the PNGs as references and use the written rules to preserve the serious, professional Swiss finance identity.
